

Cumulative Index 1987

Volume 25

January	RADIOLOGY OF INFLAMMATORY BOWEL DISEASE , pages 1-237
March	ORGAN TRANSPLANTATION: PREOPERATIVE AND POSTOPERATIVE RADIOLOGIC EVALUATION , pages 239-379
May	IMAGING IN OPHTHALMOLOGY, PART I , pages 381-666
July	IMAGING IN OPHTHALMOLOGY, PART II , pages 667-895
September	BREAST IMAGING , pages 897-1048
November	DIAGNOSTIC IMAGING IN BONE DISEASE , pages 1049-1288

Note: Page numbers of complete issues and articles are in boldface type.

- Abdomen, pain in, in inflammatory bowel disease, 217
Abscesses, hepatic, in inflammatory bowel disease, 185
 in Crohn's disease, 57
 CT of, 119-120
orbital, acoustic differentiation of, 453
perinephric, CT and ultrasound of, 275
post-liver transplantation, CT and ultrasound appearance of, 326
retroperitoneal, in inflammatory bowel disease, 202
 ultrasound of, 127
Achondroplasia, and growth plate, 1146
Acne, and spondyloarthropathies, 1251, 1253
Acquired immunodeficiency syndrome, and inflammatory bowel disease, 171
Actinomycetes, infection with, clinical features of, 67-68
Acute tubular necrosis, CT and ultrasound of, 271
 post-kidney transplantation, 247
 MRI to diagnose, 282-283
Adamantinomas, management of, 1089
Adenomas, pituitary, MRI and CT of, 826, 829-830, 880
 of optic chiasm, 871
 pleomorphic, of lacrimal gland, acoustic differentiation of, 463
Adrenogenital syndrome, and growth plate, 1141
Adventitia, in normal bowel structure, 4
Amebiasis, chronic intestinal, in inflammatory bowel disease, 171
 clinical features of, 74-75
Ameboma, imaging of, in children, 108
Amyloidosis, clinical features of, 623-624
 in inflammatory bowel disease, 184-185, 291
Anemia, in ulcerative colitis, 217-218
Aneurysms, carotid ophthalmic, MRI and CT of, 886
 intracranial, MRI and CT of, 852, 856
 renal artery, post-liver transplantation, 319
 sellar and parasellar, MRI and CT of, 837, 840
Angiography, cerebral, of carotid-cavernous fistulas, 856, 858-859
 of intracranial aneurysms, 852
coronary, post-heart transplantation, 372, 374-376
digital subtraction, of diabetic foot, 1104
 vs. aortography, for kidney donor assessment, 262
in neutropenic colitis, in children, 109
of optic nerve gliomas, 571, 574
of optic nerve meningiomas, 566
of primary bone tumors, 1078
of skeletal metastases, 1168
post-liver transplantation. See *Liver transplantation*.
pre-liver transplantation. See *Liver transplantation*.
to evaluate Crohn's disease, 28
 vs. MRI, for liver donor assessment, 284
Angioplasty, percutaneous transluminal. See *Percutaneous transluminal angioplasty*.
Angiosarcomas, management of, 1088-1089
Ankylosing spondylitis, clinical features of, 1239-1240, 1244, 1247, 1253, 1280, 1287
 HLA-B27 in, 214
Annulus of Zinn, in anatomy of extraocular muscles, 734, 735
 in muscles of eye, 441
Anterior chamber, in MRI of orbit and optic pathway, 435
Antibodies, anticolon, in etiology of inflammatory bowel disease, 215
Antigens, histocompatibility, in etiology of inflammatory bowel disease, 214
Antilymphocyte globulin, post-pancreas transplantation, 338-339
Aortography, vs. digital subtraction angiography, for kidney donor assessment, 262
Apert's syndrome, case report of, 789, 792
 clinical features of, 799
 extraocular muscles in, 749
Apex, orbital. See *Orbital apex*.
Aphthous lesions, in Crohn's disease, 9, 53-54
 in duodenum, 85-86, 90
 in esophagus, 80, 89
 in stomach, 83, 89
 in inflammatory bowel disease, 4, 6

- Apoplexy, pituitary, clinical features of, 881
 MRI and CT of, 829-830
- Aqueous humor, in MRI of orbit and optic pathway, 435
- Arrhythmias, cardiac, post-heart transplantation, 363
- Arteriography, contrast, of diabetic foot, 1104
- Arthritis, in children, with Crohn's disease, 101, 104
 peripheral enteropathic, 190
 with ulcerative colitis, 97
- juvenile rheumatoid, spinal changes in, 1249
- psoriatic, of feet, 1275-1278
- rheumatoid, clinical features of, 1242
 of feet. See *Feet*.
- septic, of sacro-iliac joints, 1244
- Arthro-osteomyelitis, diagnosis of, 1196
- Arthrography, of post traumatic wrist instability, 1119
- Arthropathies, enteropathic. See *Enteropathic arthropathies*.
 clinical features of, 1240-1242
 rheumatoid and seronegative, of feet. See *Feet*.
- ASA compounds, for Crohn's disease, 225
 for ulcerative colitis, 229
- Ascites, and liver transplantation, 290
- Aspergillosis, of nasal cavity, clinical features of, 621-622, 637
- Aspiration, CT and ultrasound to guide, post-kidney transplantation, 278
 post-liver transplantation, 330-331
 post-pancreas transplantation, 352-353
- Astrocytomas, pilocytic, MRI and CT of, 879-880
- Atherosclerosis, graft, post-heart transplantation, 363, 372, 374
- Auerbach's plexus, in normal bowel structure, 4
- Azathioprine, for Crohn's disease, 223-224
- Backwash ileitis, in ulcerative colitis, 51
- Behcet's syndrome, clinical features of, 1241-1242
 imaging of, in children, 104-105
- Bile ducts, carcinoma of, in inflammatory bowel disease, 185, 187
- Biliary atresia, and liver transplantation, 291
- Bilomas, post-liver transplantation, CT and ultrasound of, 326
- Biopsy, endomyocardial, post-heart transplantation, 372
 of kidney transplant, CT and ultrasound to guide, 278
 of pancreas, post-pancreas transplantation, 340
- Bladder, involvement of, in inflammatory bowel disease, 204-206, 208-209
- Bleeding, upper gastrointestinal, and liver transplantation, 290
- Blood, transfusions of, pre-kidney transplantation, 241
- Blowout fractures, of orbit, 744, 747
- Bone, primary tumors of, 1049-1093
 adamantineoma, 1089
 aneurysmal bone cyst, 1089
 cartilage lesions, 1083-1086
 chondroblastoma, 1084
 chondromyxoid fibroma, 1084-1085
 chondrosarcoma, 1085-1086
 enchondroma, 1083
 osteochondroma, 1083-1084
 classification of, 1052
 clinical presentation of, 1051
 fibrocystic lesions, 1087-1088
 bone cyst, 1088
 cortical desmoid, 1087
 desmoplastic fibroma, 1087
 fibrosarcoma and malignant fibrous histiocytoma, 1088
 fibroxanthoma, 1087-1088
 giant cell tumor, 1089
 imaging modalities for, 1078-1079
 importance of location of, 1079-1080
 marrow tissue lesions, 1088
 matrix in, 1064, 1069-1071, 1078
 osseous lesions, 1086-1087
 osteoblastoma, 1086-1087
 osteoid osteoma, 1086
 osteoma, 1086
 osteosarcoma, 1087
 periosteal reaction to, 1060, 1064
 radiographic margin of, 1054, 1058, 1060
 geographic destruction of, 1054, 1058, 1060
 moth-eaten and permeative destruction of, 1060
 therapeutic goals for, 1049
 tripartite, 1080
 vascular lesions, 1088-1089
- Bony orbit, 1086-1087
- fibrous dysplasia of, 641-642
 in MRI of orbit and optic pathway, 444
 in multiplanar CT of orbit, 389
 malignant tumors of, 644
- Bowel test, for occult fistulas, in inflammatory bowel disease, 206
- Bowel, obstruction of, in Crohn's colitis, 57-58
- Bowel wall, thickness of, in Crohn's disease, 61-62
 CT of, 118
 ultrasound of, 127
- in toxic dilatation of colon, 152-153
- in ulcerative colitis, 61-62
- Brain stem, and posterior fossa, MRI and CT of, 873-874
- Breast cancer, control of, through mammography screening. See *Mammography*.
- costs of screening for, 1031-1037
- age at screening and intervals between, 1032
- compared to other costs in current medical system, 1036
- cost-benefit analysis, 1033-1036
- importance of strategies, 1036
- lack of early benefit for younger women in controlled trials, 1031-1032
- Breasts, benign lesions of, imaging and management of, 939-951
 biopsy vs. follow-up, 939-940
 dermal calcifications, 949
 fat necrosis, 945-946
 fibroadenomas, 945
 galactoceles, 941
 hamartomas, 941
 intramammary lymph nodes, 942-945
 lipomas, 940
 milk of calcium in benign cysts, 948-949
 traumatic lipid cysts, 941-942
- imaging of, by mammography. See *Mammography*.
 by xeromammography, history and recent developments in, 929-937
 nonmammographic, 961-971
 digital imaging, 967-969
 magnetic resonance imaging, 964-966
 transillumination, 963-964
 ultrasound, 961-963
- Brescia-Cimino internal fistula, for dialysis access, 250, 251
- Bridge grafts, arteriovenous, for dialysis access, 254-256
- Brodie's abscess, imaging of, 1191-1192
- Brown's syndrome, CT of, 738, 740, 744
- Budd-Chiari syndrome, and liver transplantation, 291
- Bypass surgery, intestinal, complications of, 1241
 enteropathic arthropathies in, 195-196

- Calcifications, of breasts, imaging and management of, 945-946, 948-949
 Caliber changes, in inflammatory bowel disease, 20-23
 Campylobacter, infection with, clinical features of, 68
 imaging of, in children, 106-107
 Cancer. See also *Carcinoma*.
 breast. See *Breast cancer*.
 intestinal, in ulcerative colitis. See *Malignancy*.
 Candida, infection with, clinical features of, 74
 Carcinoma, and Crohn's disease, CT of, 121
 bile duct, in inflammatory bowel disease, 185, 187
 orbital, acoustic differentiation of, 463
 squamous cell, in inflammatory bowel disease, 169
 of nasal cavity, 637
 Cardiac transplantation. See *Heart transplantation*.
 Catheters, right atrial, for dialysis access, 258-259
 Cavernous sinus, in MRI of orbit and optic pathway, 443-444
 MRI and CT of, 870-871
 Cellulitis, orbital, acoustic differentiation of, 453
 clinical features of, 616-617, 619
 vs. osteomyelitis, 1196, 1199
 Cerebral vascular insufficiency, dynamic CT diagnosis of, 724
 Cerebrovascular occlusive disease, of posterior visual pathway, 873
 Chiasma syndrome, causes of, 840
 Children, inflammatory bowel disease in, imaging of. See *Inflammatory bowel disease*.
 kidney transplantation in, 245
 Chlamydia, infection with, clinical features of, 68
 Cholangiocarcinoma, vs. primary sclerosing cholangitis, 179-180
 Cholangiography, to diagnose cholangitis, in inflammatory bowel disease, 179, 180
 Cholangitis, primary sclerosing, in inflammatory bowel disease, 129, 178-179, 182-183
 vs. bile duct carcinoma, 185, 187
 sclerosing, and liver transplantation, 291
 Cholelithiasis, and kidney transplantation, 241
 in inflammatory bowel disease, 176-177
 Chordomas, sellar, clinical features of, 883
 Choroid, in MRI of orbit and optic pathway, 436
 structure of, and choroidal and retinal detachments, 496
 Choroidal detachments, MRI and CT of, 478, 483, 487-507
 anatomy of eye in, 492, 496, 499-500
 materials and methods in, 487
 results of case studies, 487-488, 492
 ultrasound diagnosis of, 483
 Ciliary body, in MRI of orbit and optic pathway, 435
 Cineangiography, magnification, post-liver transplantation, 312
 pre-liver transplantation, 301, 303
 Cirrhosis, and liver transplantation, 290-291
 biliary, vs. primary sclerosing cholangitis, 179-180
 enteropathic arthropathies in, 196
 in inflammatory bowel disease, 183
 Cisternography, positive contrast, of sellar and parasellar disorders, 825-826
 Cloquet's canal, in persistent hyperplastic primary vitreous, 684, 689
Clostridium difficile, imaging of, in children, 108
 infection with, clinical features of, 69
 Clubbing, digital, in Crohn's disease, 191
 in ulcerative colitis, 193
 Coats' disease, clinical features of, 672, 677, 678
 retinal detachment in, 500
 Cobblestoning, in Crohn's disease, 56
 transmural, 37
 in inflammatory bowel disease, 17
 of abnormal folds, in Crohn's disease, 33
 Colectomy, total, for ulcerative colitis, with ileoanal anastomosis, 53
 with ileorectal anastomosis, 52
 Colitis, Crohn's. See *Crohn's colitis*.
 due to detergents, caustics, and herb enemas, 111
 imaging of, in children, cows' milk allergy, 110-111
 ischemic, 109
 neutropenic, 108-109
 indeterminate or cross-over, 64
 pseudomembranous, clinical features of, 69
 imaging of, in children, 108
 ulcerative. See *Ulcerative colitis*.
 Colobomas, optic nerve, CT of, 693-699
 case reports of, 693-695, 697
 materials and methods in, 693
 embryonic derivation of posterior ocular structures and, 697-698
 Colon, carcinoma of, ulcerative colitis and, 23
 perforation of, 148, 153-154
 toxic dilatation of, 147-155
 clinical aspects of, 147-148
 pathology of, 149-150
 precipitating factors in, 149
 radiologic features of, 150-154
 risk factors for, 148-149
 Coma, hepatic, and liver transplantation, 290
 Computed tomography, direct multiplanar high resolution, of orbital foreign bodies, 760, 762-763
 of orbital trauma. See *Orbit*.
 of post-orbital trauma edema, 756
 of post-orbital trauma enophthalmos, 757
 of post-orbital trauma oculomotor nerve palsy, 745-757
 of post-orbital trauma scar tissue formation, 758-760
 dynamic, in ophthalmology. See *Ophthalmology*.
 in inflammatory bowel disease, 115-125
 Crohn's disease, 116-121
 evaluation of, 27-28
 in children, 101
 differential features of, 125
 evaluation of scan, 116
 technical factors in, 115-116
 ulcerative colitis, 121, 125
 ureteral obstruction, 202-203
 in kidney transplantation, 267-274
 technique for, 267-268
 to assess vascular integrity, 277
 to diagnose acute tubular necrosis, 271
 to diagnose posttransplant neoplasms, 277
 to diagnose rejection, 271
 to diagnose urologic complications, 271-277
 extraperitoneal gas, 275, 277
 hydronephrosis, 271-272, 274
 perinephric fluid collections, 274-275
 uncharacterized fluid collections, 275
 to guide biopsy, aspiration, and drainage, 278
 in liver transplantation, 322-331
 technique for, 323-324
 to assess vascular integrity, 326-330
 to diagnose biliary leaks, 326
 to diagnose biliary obstruction, 325-326
 to diagnose fluid collections, 326
 to diagnose ischemia and infarction, 324
 to diagnose malignancy, 324-325, 330
 to diagnose rejection, 324
 to guide aspiration and biopsy, 330-331
 in neutropenic colitis, in children, 109
 in pancreas transplantation, 345-355

- Computed tomography (*Continued*)
 in pancreas transplantation, technique for, 347
 to diagnose fluid collections, 351–352
 to diagnose parenchymal changes, 347
 to guide aspiration and drainage, 352–353
- of amyloidosis, 623–624
- of bacterial orbital cellulitis, 616–617, 619
- of brain stem and posterior fossa, 873–874
- of Brown's syndrome, 738, 740, 744
- of cavernous sinus, 870–871
- of cavernous sinus thrombosis, 622–623
- of choroidal detachments. See *Choroidal detachments*.
- of colobomatous cyst. See *Cysts*.
- of congenital anomalies of extraocular muscles, 750–751
- of diabetic foot, 1101, 1103
- of double elevator palsy, 744
- of fatty infiltration, in inflammatory bowel disease, 176
- of genitourinary tract, 206
- of granulomatous disease, 619
- of Graves' orbitopathy, 591, 595
- of growth plate, 1135
- of idiopathic optic neuropathy, 865–866
- of idiopathic orbital inflammatory syndrome, 583–585, 588
- of intracranial aneurysms, 852, 856
- of intraorbital vascular lesions, 850
- of lacerated extraocular muscles, 747
- of lacrimal gland and fossa lesions, 767–779
- of lymphoid tumors, 595–599
- of morning glory anomaly. See *Morning glory anomaly*.
- of mucoceles, 624–625, 636–637
- of mycotic infections, 621–622
- of ocular motility disorders. See *Ocular motility disorders*.
- of optic chiasm, 871–872
- of optic nerve colobomas. See *Colobomas*.
- of optic nerve meningiomas, 880–884, 886
- of optic nerve tumors. See *Tumors*.
- of optic neuritis, 622
- of optic neuropathies, 865–868
- of orbit, normal direct multiplanar. See *Orbit*.
- of orbital abnormalities, in neurofibromatosis. See *Neurofibromatosis*.
- of orbital apex. See *Orbital apex*.
- of orbital blowout fractures, 747
- of orbital contents and optic nerve, 863–865
- of orbital lymphoma, 604, 608–610
- of orbital metastasis. See *Metastasis*.
- of orbital pseudotumors, 879
- of orbital rhabdomyosarcoma, in childhood, 702, 704–705, 707–712
- of orbital space-occupying lesions. See *Space-occupying lesions*.
- of osteomyelitis, 622, 1257
- of papilledema, 868, 870
- of paraorbital tumors. See *Paraorbital tumors*.
- of persistent hyperplastic primary vitreous. See *Persistent hyperplastic primary vitreous*.
- of pilocytic astrocytomas, 879–880
- of pituitary adenomas, 880–881
- of posterior visual pathway, 872–873
- of primary bone tumors, 1078–1079
- of pseudotumor orbital myositis, 737–738
- of retinal detachments. See *Retinal detachments*.
- of retinoblastomas, and simulating lesions. See *Retinoblastomas*.
- of rheumatoid and seronegative arthropathies, of feet, 1266
- of sellar and parasellar disorders. See *Sellar and parasellar disorders*.
- of skeletal metastases, 1166–1167
- of spinal cord, 874
- of spondyloarthropathies, 1236–1237
- of thyroid myopathy, 736–737
- of Tolosa-Hunt syndrome, 879
- of uveal melanoma, vs. MRI, 472
- post-heart transplantation, 363, 367–368
- pre-heart transplantation, 350
- pre-liver transplantation, 300, 306
- Cornea, in MRI of orbit and optic pathway, 432, 435
- Corticomedullary contrast, post-kidney transplantation, MRI of, 283
- Corticosteroids, for Crohn's disease, 222–223, 227
 for ulcerative colitis, 228–229, 230
- Cows' milk allergy, colitis due to, imaging of, in children, 110–111
- C-peptide levels, monitoring of, post-pancreas transplantation, 339
- Craniopharyngiomas, clinical features of, 881–882
 of optic chiasm, 871
- suprasellar, MRI and CT of, 834, 837
- Crohn's colitis. See also *Crohn's disease; Inflammatory bowel disease*.
 characteristic findings in, 53–57
 aphthous ulcers, 53–54
 distribution of disease, 54
 skip lesions and asymmetry, 54–56
 ulceration, 56–57
 complications of, 57–58
 diagnosis of, contrast examinations in, 48–49
 plain films in, 47–48
 differential diagnosis of, 58–62
 features in common with ulcerative colitis, 59–62
 in elderly, 62
 surgery and postoperative recurrence in, 58
 Crohn's disease. See also *Crohn's colitis; Inflammatory bowel disease*.
 bladder and genital involvement in, 204–206, 208–209
 CT of, 116–121
 carcinoma, 121
 fistulas and sinus tracts, 120–121
 lumen and mucosal disease, 116–117
 mesenteric disease, 118–120
 mural disease, 117–118
 rectal and perirectal changes, 121
 current management of, 221–227
 frontiers of drug therapy, 225
 indications for surgery, 226
 postoperative recurrence, 226
 special problems in, 225–226
 perianal Crohn's disease, 225–226
 short bowel syndrome, 225
 specific drug therapy, 221–225
 corticosteroids, 222–223
 immunosuppressive therapy, 223–224
 metronidazole, 224–225
 sulfasalazine, 221–222
 summary of, 226–227
 enteropathic arthropathies in, 190–192
 granulomas in, 6–7
 in children, imaging of, 98–101, 104
 complications and extraintestinal effects of, 101, 104
 indications for surgery, 104
 in infants, 104
 intestinal cancer in, 167–169
 evaluation of patient for, 168–169
 of small intestine, 25–45
 clinical considerations in, 26
 differential diagnosis of, 41, 43

- disease distribution in, 28–30
 radiographic abnormalities in, 30–41
 classification of, 30–32
 extrinsic abnormalities, 41
 superficial disease, 32–33, 35–37
 transmural disease, 37–38, 40–41
 role of radiology in, 25–26
 techniques for evaluating, 26–28
 of upper gastrointestinal tract, 79–91
 clinical findings in, 79–80
 radiographic findings in, 80–88
 of upper intestinal tract, differential diagnosis of, 89–90
 radiographic findings in, in duodenum, 85–87
 in esophagus, 80, 82
 in stomach, 82–85
 perianal, 225–226
 ultrasound of, 127
- Crouzon's syndrome, case report of, 793
 clinical features of, 797–799
 extraocular muscles in, 749
- Cryptosporidium, infection with, clinical features of, 74
- Cystoscopy, for Crohn's disease, 225
 post-heart transplantation, 361, 363, 370, 372
 post-kidney transplantation, 245
 post-liver transplantation, 295–296
 post-pancreas transplantation, 334–335, 338, 345–346
 toxicity to, post-kidney transplantation, MRI to diagnose, 283
- Cystoscopy, of genitourinary tract, in inflammatory bowel disease, 205–206
- Cystourethrogram, voiding, pre-kidney transplantation, 240
- Cysts, acoustic differentiation of, 450
 aneurysmal bone, management of, 1089
 bone, 1088
 chronic orbital granulomatous, CT of, 538–539
 colobomatous, 693–699
 case reports of, 693–695, 697
 materials and methods in, 693
 dermoid, acoustic differentiation of, 461
 developmental orbital, MRI and CT of, 539–540
 sellar and juxtasellar, MRI and CT of, 843–844
 traumatic lipid, of breasts, imaging and management of, 941–942
- Dacryoadenitis, clinical features of, 767
 in idiopathic orbital inflammatory syndrome, 585
- Dacryocystography, in ophthalmology, 781–786
 history of, 781
 interpretation and pathology of, 782–783, 785–786
 canalicular obstructions in, 782–783
 common canalicular obstructions in, 783
 high nasolacrimal duct obstruction in, 783
 middle level obstruction in, 783, 785
 trauma in, 785–786
 technique of, 782
- Desmoids, cortical, management of, 1087
- Detachments, choroidal. See *Choroidal detachments*.
 retinal. See *Retinal detachments*.
- Diabetes mellitus, foot in, 1095–1105
 infection in, 1098–1103
 neuroarthropathy in, 1095–1097
 vascular disease in, 1103–1104
- Pancreas transplantation for. See *Pancreas transplantation*.
- Dialysis, access for, arteriovenous bridge grafts for, 254–256
 complications of, 249
- external arteriovenous shunts for, 256–258
 internal arteriovenous fistulas for, 250–254
 radial-cephalic fistulas for, 250–254
 radiographic evaluation and management of, 249–260
 right atrial catheters for, 258–259
- Diaphanography, of breasts, 963–964
- Diarrhea, in inflammatory bowel disease, 217
- Diffuse idiopathic skeletal hyperostosis, clinical features of, 1249–1250
 with vitamin A derivatives, clinical features of, 1251
- Digital imaging, of breasts, 967–969
- Digital subtraction angiography, vs. aortography, for kidney donor assessment, 262
- Double elevator palsy, CT of, 744
- Double-contrast barium enema, in children, with Crohn's disease, 98
 with ulcerative colitis, 94
 in toxic dilatation of colon, 149
 to diagnose colitis, 48–49
- Duodenum, in Crohn's disease, radiographic findings in, 85–87
- Dysplasias, fibrous, clinical features of, 884, 886
 of bony orbit, clinical features of, 641–642
 in Crohn's disease, 168
 in ulcerative colitis, 52, 160–161, 164–166
 osseous, in neurofibromatosis, 800
 skeletal. See *Skeletal dysplasias*.
- Echocardiography, post-heart transplantation, 368, 370–372
 pre-liver transplantation, 300, 306
- Edema, post-orbital trauma, CT of, 756
- Elderly, Crohn's and ulcerative colitis in, 62
- Embolotherapy, for vascular injuries, 1205–1206, 1208
- Empty sella, MRI and CT of, 830, 833
- Encephaloceles, clinical features of, 639
- Encephalopathy, hepatic, and liver transplantation, 290
- Enchondromas, management of, 1083
- Enchondromatosis, and growth plate, 1150
- Endophthalmitis, and leukokoria, 672
- Endoscopy, in inflammatory bowel disease, 218
 to diagnose colitis, 48
- Enema, barium, in toxic dilatation of colon, 149
 in ulcerative colitis, in infants, 97
 double-contrast barium. See *Double-contrast barium enema*.
 small bowel, to evaluate Crohn's disease, 26–27
- Enophthalmos, post-orbital trauma, CT of, 757
- Entamoeba histolytica*, infection with, clinical features of, 74–75
 imaging of, in children, 108
- Enteroclysis, in Crohn's disease, 26–27
 in children, 101
- Enteroclitides, infective. See *Infective enterocolitidis*.
- Enterocolitis, Hirschsprung's, imaging of, in children, 109–110
 necrotizing, imaging of, in children, 110
- Enteropathic arthropathies, 189–198
 etiology of, 189–190
 in Crohn's disease, 190–192
 in inflammatory bowel disease, axial and appendicular skeletal alterations in, 190
 musculoskeletal alterations in, prevalence of, 189
 in intestinal bypass surgery, 195–196
 in intestinal infections, 195
 in ulcerative colitis, 192–193
 in Whipple's disease, 193, 195

- Eosinophilic gastroenteritis, imaging of, in children, 105–106
- Epithelium, in normal bowel structure, 3
- Escherichia coli*, infection with, clinical features of, 73
imaging of, in children, 106
- Esophagus, in Crohn's disease, radiographic findings in, 80, 82
- Esthesioneuroblastomas, of nasal cavity, clinical features of, 638
- Ewing's sarcoma, management of, 1088
- Exophthalmos, vs. proptosis, in neurofibromatosis, 789
- Exorbital, clinical features of, 789
- Extravasation, biliary, post-liver transplantation, CT and ultrasound of, 326
urinary, post-kidney transplantation, 247
- Eye, anatomy of, and choroidal and retinal detachments, 492, 496, 499–500
in MRI of orbit and optic pathway. See *Orbit*.
tuberculosis of, 619
- Face, tumors of, clinical features of, 640–641
- Familial Mediterranean fever, clinical features of, 1242
- Fascia, orbital, anatomy of, and orbital lesions, 530
- Fat necrosis, of breasts, imaging and management of, 945–946
- Fatty infiltration, in inflammatory bowel disease, 175–176
- Fecal stasis, in ulcerative colitis, 52
- Feet, diabetic. See *Diabetes mellitus*.
rheumatoid and seronegative arthropathies of, 1263–1288
anatomic considerations in, 1266–1268
ankylosing spondylitis, 1280, 1287
imaging modalities for, 1266
pathophysiology of, 1263–1266
psoriatic arthritis, 1275–1278
Reiter's syndrome, 1278–1280
rheumatoid arthritis, 1268–1269, 1275
- Fibroadenomas, of breasts, imaging and management of, 945
- Fibromas, chondromyxoid, management of, 1084–1085
desmoplastic, management of, 1087
- Fibrosarcomas, and malignant fibrous histiocytoma, management of, 1088
- Fibroxanthomas, management of, 1087–1088
- Fingers, clubbing of, in Crohn's disease, 191
in ulcerative colitis, 193
- Fistulas, carotid-cavernous, CT diagnosis of, 554, 556–558
diagnosis of, 856, 858–859
cavernous sinus arteriovenous, acoustic differentiation of, 459
coloduodenal, 87
for dialysis access, 250–254
gastrocolic, 90
in Crohn's disease, CT of, 57, 120–121
in stomach, 85
transmural, 38
of genitourinary tract, in inflammatory bowel disease, 205, 206, 208
- Fistulography, to evaluate Crohn's disease, 27
to evaluate fistulas, for dialysis access, 251–252
- Flexner-Wintersteiner rosettes, in retinoblastoma, 675
- Fluid collections, CT and ultrasound of, perinephric, 274–275
post-pancreas transplantation, 351–352
uncharacterized, 275
- Fluoroscopy, in Crohn's disease, in children, 100
of dynamic carpal instabilities, 1117
- Folds, abnormal, radiographic appearance of, in Crohn's disease, 33, 35
- Follicles, lymphoid, radiographic appearance of, in Crohn's disease, 37
- Foreign bodies, orbital, acoustic differentiation of, 463, 465
direct multiplanar high resolution CT of, 760, 762–763
- Fractures, blowout, orbital, 744, 747
healed, radionuclide bone scans of, 1159
- Musculoskeletal. See *Musculoskeletal system*.
- Fuchs' anomaly, clinical features of, 693, 698
- Galactoceles, of breasts, imaging and management of, 941
- Gallium-67 citrate, in nuclear medicine imaging, 134–135
- Gallium-67 citrate bone imaging, of acute and chronic osteomyelitis, 1181–1182, 1187, 1191, 1196
of diabetic foot, 1101
- Garré, chronic sclerosing osteomyelitis of, imaging of, 1192, 1195
- Gas, extraperitoneal, CT and ultrasound of, 275, 277
- Gastroenteropathy, allergic, imaging of, in children, 105–106
- Gastrointestinal tract, upper, Crohn's disease of. See *Crohn's disease*.
- Genetics, in etiology of inflammatory bowel disease, 214
- Genital tract, involvement of, in inflammatory bowel disease, 204–206, 208–209
- Genitourinary complications, of inflammatory bowel disease. See *Inflammatory bowel disease*.
- Giant cell tumors, of bone, 1089
of optic nerve, 879–880
- Giardia, infection with, clinical features of, 75
- Glaucoma, congenital, in neurofibromatosis, 800, 802
- Gliomas, of optic chiasm, MRI and CT of, 844, 871–872
optic, clinical features of, 879
in neurofibromatosis, 799–800
optic nerve, acoustic differentiation of, 453
MRI and CT of, 453, 516, 566, 569, 571, 574
- Globes, lacerated, CT diagnosis of, 483, 485
- Gonorrhea, clinical features of, 70
- Gout, clinical features of, 1242
- Granularity, diffuse mucosal, radiographic appearance of, in Crohn's disease, 35–36
- Granulomas, eosinophilic, clinical features of, 642–643
giant-cell, clinical features of, 643
in Crohn's disease, 6–7
- Granulomatous disease, clinical features of, 619
of optic chiasm, 872
- Graves' disease, acoustic differentiation of, 465
clinical features of, 588, 591, 595
proptosis of, CT diagnosis of, 574, 579
vs. idiopathic orbital inflammatory syndrome, 597–598
- Growth failure, in children, with Crohn's disease, 192
with ulcerative colitis, 97
- Growth plate, abnormal, 1135–1138
radiographic patterns of, 1136–1138
factors affecting, 1135–1136
disorders affecting, 1138–1152
- Achondroplasia, 1146
- Adrenogenital syndrome, 1141
- Enchondromatosis and osteochondromatosis, 1150
- Hypophosphatasia, 1141
- Hypopituitarism, 1141
- Infection, 1150
- Metaphyseal chondrodysplasia, 1146, 1150
- Neonatal hyperparathyroidism, 1141

- rickets, 1138, 1141
 trauma, 1141, 1145
 Turner syndrome, 1141
 vascular, 1150, 1152
 normal, 1134–1135
 histology of, 1134–1135
- Hamartomas, of breasts, imaging and management of, 941
 Haustration, loss of, in inflammatory bowel disease, 20
 Health Insurance Plan of New York study, of screening for breast cancer, 995, 1031, 1032, 1033
 Heart transplantation, clinical considerations in, 357–366
 donor evaluation and management, 359–360
 future, 364–365
 graft atherosclerosis and chronic vascular rejection, 363
 infection, 362–363
 malignancy, 363
 organ procurement and implantation, 360–361
 postoperative care and immunosuppression, 361–362
 recipient selection and indications, 357–359
 rejection, 362
 survival statistics, 364
 diagnostic challenges after, 367–376
 coronary angiography in, 372, 374–376
 echocardiology in, 368, 370–372
 endomyocardial biopsy in, 372
 radiography and CT in, 367–368
 MRI in, 285, 287
 Helminths, infection with, clinical features of, 75–76
 Hemangiopericytomas, orbital, 851–852
 Hemangiomas, capillary, acoustic differentiation of, 459, 461
 CT diagnosis of, 551
 cavernous, acoustic differentiation of, 463
 CT diagnosis of, 551, 553
 MRI diagnosis of, 520
 choroidal, CT diagnosis of, 485–486
 MRI diagnosis of, 485–486, 513
 retinal detachment in, 501
 orbital, 851
 dynamic CT diagnosis of, 718, 724–725
 Hemangiopericytomas, management of, 1089
 MRI and CT diagnosis of, 553–554
 orbital, 851–852
 Hematomas, choroidal, and choroidal detachment, MRI diagnosis of, 488, 492
 perinephric, CT and ultrasound of, 275
 post-liver transplantation, CT and ultrasound of, 326
 subperiosteal orbital, clinical features of, 642
 CT diagnosis of, 536–537
 Hemodialysis, destructive spondyloarthropathy in, 1256
 Hemolytic-uremic syndrome, imaging of, in children, 106
 Hepatic transplantation. See *Liver transplantation*.
 Hepatitis, chronic active, in inflammatory bowel disease, 183–184
 enteropathic arthropathies in, 196
 granulomatous, in inflammatory bowel disease, 185
 Herpes viruses, infection with, clinical features of, 73
 Hirschsprung's enterocolitis, imaging of, in children, 109–110
 Histiocytomas, fibrous, acoustic differentiation of, 458–459
 malignant fibrous, and fibrosarcoma, management of, 1088
 Histocompatibility antigens, in etiology of inflammatory bowel disease, 214
- Histoplasma, infection with, clinical features of, 74
 Histoplasmosis, imaging of, in children, 108
 Hyaloid membrane, structure of, and choroidal and retinal detachments, 499
 Hydronephrosis, CT and ultrasound of, 271–272, 274
 Hyperparathyroidism, neonatal, and growth plate, 1141
 Hyperplasia, benign and temporal, of pituitary gland, MRI and CT of, 830
 reactive lymphoid, 595–596
 vs. idiopathic orbital inflammatory syndrome, 596–597
 Hypertelorism, clinical features of, 788–789
 Hypertension, portal, and liver transplantation, 290
 post-heart transplantation, 363
 Hypophosphatasia, and growth plate, 1141
 Hypopituitarism, and growth plate, 1141
- Idiopathic orbital inflammatory syndrome.** See *Pseudotumor*.
- Ileum, terminal. See *Terminal ileum*.
 Immunologic system, in etiology of inflammatory bowel disease, 214–215
 Immunosuppressive drugs, for Crohn's disease, 223–224
 for ulcerative colitis, 229
 post-heart transplantation, 361–362, 370, 372
 post-kidney transplantation, 245
 post-liver transplantation, 295–296
 post-pancreas transplantation, 334–335, 337–339, 345–346
 Impotence, in inflammatory bowel disease, 208–209
 Indium-111, in nuclear medicine imaging, 135
 Indium-111 leukocyte imaging, of acute and chronic osteomyelitis, 1182, 1184
 of diabetic foot, 1101
 Infections, and growth plate, 1150
 enteric, imaging of, in children, 106–108
 in diabetic foot, 1098–1103
 intestinal, enteropathic arthropathies in, 195
 of nasal cavity, fungal, 637
 mycotic, 621–622
 post-heart transplantation, 362–363
 post-pancreas transplantation, 341–342
 skeletal. See *Osteomyelitis*.

- Retina, in MRI of orbit and optic pathway, 436
 structure of, and choroidal and retinal detachments, 496
- Retinal detachments, MRI and CT of, anatomy of eye in, 492, 496, 499–500
 materials and methods in, 487
 results of case studies, 487–488, 492
- Retinal vein, central, nontumoral enlargement of, 579
- Retinoblastomas, and simulating lesions, MRI and CT of, 667–682
 for diagnostic imaging, 668–669, 672
 MRI diagnosis of, 513
- Retrobulbar fibroplasia, retinoblastoma and, 669, 672
- Rhabdomyosarcoma, orbital. See *Orbital rhabdomyosarcoma*.
- Rheumatoid arthritis, clinical features of, 1242
 juvenile, spinal changes in, 1249
 of feet. See *Feet*.
- Rickets, and growth plate, 1138, 1141
 hepatic, and liver transplantation, 290
- Rotavirus, infection with, clinical features of, 74
- Sacroiliitis, disorders producing. See *Spondyloarthropathies*.
- in Crohn's disease, 190–191
 in ulcerative colitis, 192–193
 in Whipple's disease, 195
- Saethre-Chotzen syndrome, clinical features of, 799

- Salmonella, infection with, clinical features of, 70-71
 enteropathic arthropathies in, 195
 imaging of, in children, 106
- Sarcoidosis, clinical features of, 619
 MRI and CT of, 840, 843
- Sarcomas, nasal cavity, clinical features of, 638
 optic, acoustic differentiation of, 453, 458
- Scar tissue, formation of, after orbital trauma, CT of, 758-760
- Schistosomiasis, in inflammatory bowel disease, 171
- Schwannomas, orbital, CT diagnosis of, 554, 556-558
- Sclerosing cholangitis, inflammatory bowel disease and, 129
- Sclerosis, discogenic vertebral, clinical features of, 1255-1256
- Sclerosteosis, clinical features of, 642
- Scribner shunt, for dialysis access, 256-257
- Sellar and parasellar disorders, MRI and CT of, 819-847
 anatomy of chiasm in, 819, 822-823
 craniopharyngiomas, 834, 837
 empty sella, 830, 833
 inflammatory process, 840, 843
 meningiomas, 833-834
 normal imaging anatomy in, 823-825
 optic chiasm glioma, 845
 pituitary adenomas, 826, 829-830
 positive contrast cisternography in, 825-826
 sellar and juxtasellar cyst, 843-844
 technique of high resolution CT, 823
 vascular lesions, 837, 840
- Septum, orbital, anatomy of, and orbital lesions, 530, 532
- Seromas, post-liver transplantation, CT and ultrasound of, 326
- Serum amylase, monitoring of, post-pancreas transplantation, 339
- Shigella, infection with, clinical features of, 71-72
 enteropathic arthropathies in, 195
 imaging of, in children, 106
- Short bowel syndrome, in Crohn's disease, 225
- Shunting, external arteriovenous, for dialysis access, 256-258
 venous, post-liver transplantation, 319
- Sickle cell disease, with osteomyelitis, 1195-1196
- Sinus tracts, in Crohn's disease, CT of, 120-121
 transmural, 38
- Sinuses, cavernous, in MRI of orbit and optic pathway, 443-444
 paranasal. See *Paranasal sinuses*.
- Sjögren's syndrome, clinical features of, 767
- Skeletal dysplasias, in infancy, 1211-1233
 nomenclature of, 1211-1214
 with predominately normal trunks, 1221
 asphyxiating thoracic dysplasia, 1228
 chondrodermatitis punctata, 1231
 chondroectodermal dysplasia, 1229
 cleidocranial dysplasia, 1232
 with predominately short extremities, 1214-1220
 achondrogenesis, 1217
 achondroplasia, 1215
 osteogenesis imperfecta congenita, 1220
 short-rib polydactyl syndrome, 1219
 thanatophoric dysplasia, 1218
 with predominately short trunks, 1221
 Kniest dysplasia, 1225
 mucolipidosis II, 1226
 mucopolysaccharidosis IV, 1227
 spondyloepiphyseal dysplasia congenita, 1223
- Skeletal metastases, 1155-1170
 approach to known non-osseous primary tumors, 1156-1162
- scintigraphic patterns, 1157, 1159-1160, 1162
- scintigraphic techniques, 1156-1157
- approach to unknown primaries, 1162-1165
- MRI of, 1167-1168
- pathophysiology of, 1155-1156
- problems and pitfalls of, 1165-1166
- tomography and CT of, 1166-1167
- Skip lesions, in Crohn's disease, 29, 54-56
- Small bowel enema, in Crohn's disease, in children, 101
- Small bowel follow-through, to evaluate Crohn's disease, 26
- Small intestine, Crohn's disease of. See *Crohn's disease*.
- Space-occupying lesions, orbital, MRI and CT of, 529-559
 anatomic approach to, 529
 extraconal orbital subperiosteal, 535-540
 developmental orbital cysts, 539-540
 hematoxylin granulomatous cysts, 538-539
 osteoblastomas, 540
 subperiosteal orbital hemangiomas, 536-537
 extraconal peripheral orbital, 540, 550
 in subperiosteal space, 530, 532-533, 535
 anatomy of orbital fascia, 530
 intraconal orbital Tenon's space, 533, 535
 orbital fatty reticulum, 533
 orbital septum, 530, 532
 Tenon's capsule and space, 532-533
 intraconal orbital, 550-551
 localization of masses, 529-530
 orbital varix and carotid-cavernous fistulas, 554, 556-558
 optic nerve tumors, 554
 orbital schwannomas, 554, 556-558
 vascular conditions, 551, 553-554
 capillary hemangiomas, 551
 cavernous hemangiomas, 551, 553
 hemangiopericytomas, 553-554
 lymphangiomas, 553
- SPECT scanning, of osteomyelitis, 1259
- Spinal cord, MRI and CT of, 874
- Splenectomy, pre-kidney transplantation, 241
- Splenomegaly, post-liver transplantation, CT and ultrasound of, 330
- Splenoportography, pre-liver transplantation, 301, 303, 307
- Spondylitis, in Crohn's disease, 190-191
 in ulcerative colitis, 192-193
 in Whipple's disease, 195
- Spondyloarthropathies, 1235-1262
 clinical features of, 1235-1239
 CT examination, 1236-1237
 laboratory studies, 1235
 radiographic examination, 1235-1236
 sacro-iliac joint scanning, 1239
- disorders producing bony bridging, 1244, 1247-1258
 acne-associated spondyloarthropathy derivatives, 1251, 1253
- ankylosing spondylitis, 1244, 1247
- diffuse idiopathic skeletal hyperostosis, 1249-1250
- enteropathic spondylitis, 1248-1249
- juvenile rheumatoid arthritis, 1249
- pathologic features of, 1250-1251
- psoriatic spondylitis, 1247-1248
- radiologic features of, 1251
- Reiter's spondylitis, 1248
- skeletal hyperostosis with vitamin A derivatives, 1251
- X-linked hypophosphatemic osteomalacia, 1253
- disorders producing focal bone destruction, 1253-1259
- ankylosing spondylitis, 1253
- bone scans of, 1257, 1259
- cauda equina syndrome, 1253, 1255

- CT of, 1257
 discogenic vertebral sclerosis, 1255–1256
 hemodialysis, 1256
 MRI of, 1259
 vertebral osteomyelitis, 1256–1257
- disorders producing sacroiliitis, 1239–1244
 ankylosing spondylitis, 1239–1240
 degenerative disease of sacro-iliac joints, 1242, 1244
 enteropathic arthropathies, 1240–1242
 familial Mediterranean fever, 1242
 gout, 1242
 HLA-B27 associated spondyloarthritis in childhood, 1240
 osteitis condensans ilii, 1244
 psoriatic sacroiliitis, 1240
 Reiter's sacroiliitis, 1240
 relapsing polychondritis, 1242
 renal osteodystrophy, 1242
 rheumatoid arthritis, 1242
 septic arthritis of sacro-iliac joints, 1244
 seronegative spondyloarthritides, 1239
- Squamous cell carcinoma, in inflammatory bowel disease, 169
 of nasal cavity, clinical features of, 637
- Steatorrhea, in inflammatory bowel disease, 201
- Stenoses, vascular, post-liver transplantation, 316, 318, 319
- Stomach, in Crohn's disease, radiographic findings in, 82–85
- Strictures, benign, in inflammatory bowel disease, 20–21
 in Crohn's disease, 57–58
 CT of, 120–121
 in ulcerative colitis, 51–52
- String sign, in inflammatory bowel disease, 23
 in transmural Crohn's disease, 40
- Subarachnoid space, perioperative, expansion of, acoustic differentiation of, 465, 467
- Submucosa, in normal bowel structure, 4
- Sudeck's atrophy, clinical features of, 1199
- Sulfasalazine, for Crohn's disease, 221–222, 226–227
 for ulcerative colitis, 227–228, 229
- Technetium-99m bone scans, of acute and chronic osteomyelitis, 1180–1181, 1187, 1196
 of osteomyelitis, 1259
 of rheumatoid and seronegative arthropathies, of feet, 1266
- Technetium-99m-DTPA, in nuclear medicine imaging, 139–140
- Tendon of Lockwood, in muscles of eye, 441
- Tenon's capsule, anatomy of, and orbital lesions, 532–533
- Terminal ileum, in cholelithiasis, 177
 in Crohn's disease, in children, 100–101
 in ulcerative colitis, 51
 in ureteral obstruction, 202
- Thermography, of skeletal metastases, 1168
- Thrombosis, cavernous sinus, clinical features of, 622–623
 in dialysis, due to arteriovenous bridge grafts, 256
 due to external arteriovenous shunts, 257–258
 due to fistulas, 254
 due to right atrial catheters, 259
- post-liver transplantation, 294
 MRI to diagnose, 284
- post-pancreas transplantation, 341–342
- Thumb print pattern, in mucosa, 9
- Thyroid myopathy, CT of, 736–737
- Tibia, proximal, fractures of, in children, 1125, 1130
- Tissue typing, pre-kidney transplantation, 241
- Tolosa-Hunt syndrome, clinical features of, 584
 diagnosis of, 859
 MRI and CT of, 879
- Tomography, conventional, of growth plate, 1135
 of rheumatoid and seronegative arthropathies, of feet, 1266
 of skeletal metastases, 1166–1167
- Toxocara canis*, endophthalmitis due to, 672, 677
- Transfusions, blood, pre-kidney transplantation, 241
- Transillumination, of breasts, 963–964
- Transplantation, organ. See specific organs, e.g., *Kidney transplantation*.
- Tuberculosis, clinical features of, 69–70
 imaging of, in children, 108
 of eye, 619
- Tumors, bone. See *Bone*.
 giant cell, clinical features of, 883–884
 lacrimal gland, CT of, 771, 773, 777–779
 liver, and liver transplantation, 291
 lymphoid, 595–599
 optic nerve, MRI and CT of, 554, 561–581
 acute occlusion of central retinal vein, 579
 anatomy in, 562–563
 clinical features of, 563
 gliomas, 453, 566, 569, 571, 574
 in diagnostic work-up, 516, 561–562
 increased intracranial pressure, 579
 meningiomas, 563–564, 566
 optic neuritis, 574
 proptosis of Graves' disease, 574, 579
 systemic diseases, 574
 thickening of optic nerve, 574
- orbital apex, 814–815, 817
- paraorbital. See *Paraorbital tumors*.
- vascular, diagnosis of, 850–852
- Turner syndrome, and growth plate, 1141
- Typhlitis, imaging of, in children, 108–109
- Ulcerative colitis. See also *Inflammatory bowel disease*.
 and colon carcinoma, 23
 and toxic dilatation of colon, 149–150
 anemia in, 217–218
 characteristic findings in, 7–9, 49–53
 distribution and symmetry, 49, 51
 mucosal changes, 49
 secondary changes, 51
 terminal ileum, 51
 chronic, management and prognosis for, 166–167
 complications of, 51–52
 CT of, 121, 125
 current management of, 227–230
 special problems in, 229
 specific drug therapy in, 227–229
 ASA compounds, 229
 corticosteroids, 228–229
 immunosuppressants, 229
 sulfasalazine, 227–228
 summary of, 229–230
 diagnosis of, contrast examinations in, 48–49
 plain films in, 47–48
 enteropathic arthropathies in, 192–193
 features in common with Crohn's colitis, 59–62
 imaging of, in children, 93–94, 97–98
 extraintestinal manifestations of, 97
 in infants, 97–98
 in elderly, 62
 intestinal cancer in. See *Malignancy*.
 surgical options in, 52–53
 ultrasound of, 127

- Ulcers, collar-button, in ulcerative colitis, 7, 9
 fissure, in transmural Crohn's disease, 37-38
 in Crohn's and ulcerative colitis, 56-57, 60-61
 in inflammatory bowel disease, 7-9
 penetrating, in transmural Crohn's disease, 37-38
 radiographic appearance of, in Crohn's disease, 32-33
- Ultrasound, in inflammatory bowel disease, 125, 127
 abscesses, 127
 Crohn's disease, 27-28, 127
 in children, 101
 ulcerative colitis, 127
- in kidney transplantation, 267-279
 technique for, 267-268
 to assess vascular integrity, 277
 to diagnose acute tubular necrosis, 271
 to diagnose posttransplant neoplasms, 277
 to diagnose rejection, 268-271
 to diagnose urologic complications, 271-277
 extraperitoneal gas, 275, 277
 hydronephrosis, 271-272, 274
 perinephric fluid collections, 274-275
 uncharacterized fluid collections, 275
- to guide biopsy, aspiration, and drainage, 278
- in liver transplantation, 323-331
 technique for, 323-324
 to assess vascular integrity, 326-330
 to diagnose biliary leaks, 326
 to diagnose biliary obstruction, 325-326
 to diagnose fluid collections, 326
 to diagnose ischemia and infarction, 324
 to diagnose malignancy, 324-325, 330
 to diagnose rejection, 324
 to guide aspiration and biopsy, 330-331
- in pancreas transplantation, 345-355
 technique for, 347
 to diagnose fluid collections, 351-352
 to diagnose parenchymal changes, 347
 to guide aspiration and drainage, 352-353
- of breasts, 961-963
- of ocular lesions, 513, 516
- of orbit. See *Orbit*.
- of retinoblastoma, 668
- of rheumatoid and seronegative arthropathies, of feet, 1266
- of uveal melanoma, vs. MRI, 472
- post-pancreas transplantation, 340
- pre-liver transplantation, 300, 306
- Upper extremities, vascular injuries to, transcatheter treatment of, 1208
- Upper gastrointestinal tract, Crohn's disease of. See *Crohn's disease*.
- Urinary obstruction, in inflammatory bowel disease, 202-204
- Urinomas, perinephric, CT and ultrasound of, 275
- Uveal melanoma, MRI of, 471-486
 materials and methods in, 471-472, 478
- van Buchem's disease, clinical features of, 642
- Varices, orbital, acoustic differentiation of, 453
 CT diagnosis of, 554, 556-558
- Vascular disease, and diabetic foot, 1103-1104
 and growth plate, 1150, 1152
- Vascular injuries, interventional radiology in, 1203-1209
 clinical suspicion of injury, 1203, 1205
 mechanism of injury and pathophysiology, 1203
 patient selection for embolotherapy, 1205-1206
 results of embolotherapy, 1208
 transcatheter treatment methods, 1206-1208
- Vena cavaography, pre-liver transplantation, 300, 306
- Venography, pre-liver transplantation, transhepatic portal, 304
 wedged hepatic, 303-304, 307
- Vitreous body, structure of, and choroidal and retinal detachments, 496
- Vitreous humor, in MRI of orbit and optic pathway, 436
- Voiding dysfunction, in inflammatory bowel disease, 208-209
- WE study, of screening for breast cancer, 996
- Wegener's granulomatosis, clinical features of, 619, 767, 771
- Weight loss, in inflammatory bowel disease, 217
- Whipple's disease, clinical features of, 1241
 enteropathic arthropathies in, 193, 195
- White blood cells, labeling of, in nuclear medicine imaging, 135, 138-140
- Wilbrand's knee, in anatomy of chiasma, 822
- Wrists, post traumatic instability of. See *Musculoskeletal system*.
- Xeromammography, history and recent developments in, 929-937
 initial equipment for, 929-931
- Xeroradiography, of rheumatoid and seronegative arthropathies, of feet, 1266
- Yersinia, imaging of, in children, 107-108
 infection with, clinical features of, 72
 enteropathic arthropathies in, 195
- Zinn, annulus of, muscles of eye, 441
